*Wishing everyone a Merry Christmas and Joyous New Year
Ontario Chamber of Commerce*

October 8 – Ontario, NY. Twizted Creations hosted a ribbon cutting ceremony for their grand opening at 2014 Ridge Rd., Ontario, NY, sponsored by the Ontario Chamber of Commerce. The gemstone shop features semi-precious stones and gift items made from stones all over the world. “Some are from Russia, Brazil, Indonesia, and even Madagascar, said Roxanne Brown.” Roxanne, with her son, Adam Howe, and daughter, Boe Antonson, are the business owners.

The store displays include many unique gift items and jewelry made from a large variety of stones as amethyst, aquamarine, and rose quartz. Large quantities of loose stones are available that can be used for jewelry making or home decoration. Roxanne said she does all the buying herself and has traveled to mineral shows as far as Denver, CO. Some of the tumbling is done at her home in the basement. A hard material, such as a Herkimer diamond will take 2-3 weeks of tumbling before it is finished. Twizted Creations is a member of the Wayne County Gem & Mineral Society.

If you’re looking for that special gift, but not sure what to purchase, gift certificates are available. Hours are Tuesday through Saturday 10 AM – 4 PM, closed Sunday and Monday. Major credit cards are accepted. Phone: (585) 857-1012. **New poly-resin dragons along with more necklaces and earrings will be available during the holiday shopping season.**

In Memoriam – Fred Nudd

The Ontario Chamber was saddened to learn of the death of one of Ontario's legends in our community. Fred Nudd passed on Nov. 15, 2018 at the age of 98 years. He was the owner of Nudd Corporation, located at 1785 Rt. 104, Ontario, NY for 73 years. Nudd Corporation constructs and builds communication towers and large metal fabrication structures. They were the chamber's Business of the Month in May, 2000.

Fred was a community supporter and a member of the Ontario-Walworth Rotary Club for many years. His legacy will live on in the Nudd Corporation now operated by his son and brother. The chamber extends condolences to the Nudd Family. May he rest in peace.

Below is an article taken from the Wayne County Mail written by Ryan Whirly, dated March 29, 2001.

Local manufacturer towers over Ontario

By Ryan Whirly

Mail Editor

ONTARIO — In many ways, the growth of the 54-year-old Fred A. Nudd Corp. symbolizes the development that has taken place in western Wayne County, and Ontario in particular, in recent years.

In 1997, the company constructed a 200-foot-long production building in which employees manufacture metal towers for various clients. Just last month, in an effort to keep current with technology, the company purchased and installed two new machines that shear and bend steel beams up to 35 feet in length.

According to Shop Supervisor Jim Rosington, the company now employs

65 to 70 people — twice as many as it did five years ago. In 2000, the company did \$4 million of business with companies like Nextel, Sprint, Crown Castle and Atlantic Tel.

After all that growth, the firm's six-acre complex along Route 104 in Ontario is starting to get cramped, said Project Manager Doug Harradine.

"We're running out of space here," Harradine said.

As a result, the company recently purchased land across the highway, which company officials hope to use as a storage area.

Harradine said 90 to 95 percent of Fred Nudd's business comes from the cell-phone industry.

"With the cellular industry booming

like it is, a lot of towers are needed, and we can't keep up with demand," he said.

However, Harradine noted that "each (cellular) company goes through its own growth spurt," which means the growth experienced by cell-tower production firms like Nudd goes in cycles. Right now, said Rosington, the company doesn't have any further expansion plans in the near future.

But Harradine said the company — founded in 1947 by Fred Nudd and currently run by acting President Tom Nudd, Fred's son — is always looking to grow whenever possible.

"To keep up with the competition, you have to get bigger or get shut out," he said.
